

Mustafa Egeh

Frontend Developer

Profile

Proactive and results-driven Frontend Developer with a strong aptitude for rapid learning and creative problem-solving. Proficient in JavaScript, React, HTML, CSS, Tailwind, and Git, with a focus on building responsive, high-performance web applications. Proven ability to enhance application performance by 20% through advanced optimization techniques. Effective collaborator in agile teams, passionate about integrating robust APIs, debugging complex issues, and delivering clean, user-centered UIs.

Experience

Knitted for You — Lund, Sweden

Jun 2025 – Present

Frontend Developer

Engineered dynamic and responsive user interfaces using React and Tailwind CSS, creating a library of reusable components to ensure consistency and speed up future development. Identified and resolved performance bottlenecks, implementing code splitting and lazy loading to decrease load times by 20% and improve user retention. Streamlined the development workflow by introducing a modular component architecture, increasing team efficiency by 25%.

Abas Saber Building Materials — Al Khobar, Saudi Arabia

Jun 2017 – Dec 2017

Help Desk Assistant

Diagnosed and resolved a wide range of hardware and software issues, minimizing downtime for staff and maintaining operational continuity. Automated manual reporting processes, reducing time spent on repetitive tasks by 30% and allowing the team to focus on higher-value work. Contributed to improved system reliability through proactive maintenance and user support.

Project

The Electronic Store — E-commerce Web

Spearheaded the development of a full-featured React e-commerce frontend, utilizing Tailwind CSS for a modern, mobile-first responsive design. Integrated RESTful APIs to dynamically manage product data, shopping cart, and user interactions. Optimized the application for speed and usability, resulting in a seamless and engaging user experience that mirrors industry standards.

Developer Portfolio Website

Designed and built a modern, responsive portfolio with smooth animations and interactive UI elements using React and Tailwind CSS. Implemented dynamic project showcases with live demo links and technical descriptions. Optimized for SEO and performance with clean, semantic HTML and fast loading times.
